

## ◆Year 2017 Activity Report

### 【Career Guidance】

Each year, Kokusai high school conducts career guidance for 1<sup>st</sup> year students, as part of a next-step-orientation-session. Professionals, mostly Kokusai parents, from various sectors of business and organizations are invited to share their experience and talk about the reasons they are in their field and tell stories of overcoming difficulties. Together with school personnel, we are responsible for selecting, negotiating, and communicating with potential speakers, as well as hosting presenters during sessions to ensure the event is successful.

We invited 12 speakers to our event on Sat, June 3, 2017. The speakers came from international cooperation, HR training, finance, law, media, product planning, education and research and others, which exemplifies the wide variety of Kokusai parents. With such interesting topics, it was hard for students to choose only 2 sessions. We hope that it was stimulating for the students to see the professional side of some parents through exposure to the actual business scene, and by receiving samples of new products.

## Impressions from speakers

- It was great to see teenagers being very engaged, and taking notes of my session
- The reactions and questions from students and parents were very refreshing, and this will serve to motivate me as well.
- I was happy to hear them say, “Now I understand some things that I never before understood.” and “I like the society that you just talked about”.

Thank you for all the cooperation during your busy schedule.

## 【Oyo Fes / Kokusai Promotional Items Sale】

We had “Kokusai Promotional Items” with Kokusai High School logo for sale during Oyo Fes.

We sold “dry-the-sweat-of-adolescence” towels, “Pop-design” ballpoint pens, mechanical pens, erasers, clear plastic folders, check-sheets, and USBs. Thank you for purchasing.
