

Tokyo Metropolitan Kokusai High School PTA
Message from Tsuyoshi Niinomi, President for 2019 Academic Year

On behalf of the PTA, welcome to our website!

Our PTA was established on July 17, 1989, in the same year that the school was founded, and we marked our 30th anniversary together with the school last year. In line with the school's mission to nurture people with a global perspective who respect others and take action based on their own thinking, we have actively supported school events, cooperated in international exchange activities, provided support for exchange students and hosted various cultural events. The annual PTA magazine and our website have also been useful mediums for publicizing our activities.

Kokusai High School students are known to be both proactive and independent, and give it their all whether it be studies or school events. The PTA endeavors to support our students as we pursue our mission to "contribute towards the fulfillment and development of school education as well as raising awareness and encouraging friendship amongst our members" and we have built a reputation for being a very active body within the Tokyo public school scene. We have sought to strengthen camaraderie between parents and engage them with the school by providing them with opportunities to mingle and exchange information through participating in various activities and events held by the respective committees. We hope that those who are not able to participate actively in PTA activities due to other commitments will see this website and periodic notifications and that this will boost a sense of support for the school among the body of parents as a whole.

The various PTA committees are once again buzzing with activity for the current school year. We, as the PTA, wish to support you all in some shape or form so that each and every one of you is able to enjoy life at Kokusai just as much as our precious students. We hope to stay in touch.
